Date:	6 Dec 2018
Duration of event:	1 Days
Programme Area:	Climate Change
Specific Target Audience:	No
Website:	http://www.unccelearn.org
Price:	No Fee
Event Focal Point Email:	unccelearn@unitar.org

BACKGROUND

For More information, please go to: <https://www.unccelearn.org/climate-classroom>

Keeping abreast of the newest developments in climate change is essential to make timely, effective and sustainable decisions. Yet, adequate time and space for learning are rarely accessible for busy delegates, decision-makers and full-time working professional. This is why we have developed the Climate Classroom - a mobile learning space that 'pops up' at the center of major climate change conferences and related events. The Climate Classroom offers focused 45-min learning sessions on highly relevant climate change topics delivered by select experts in English and French.

During each session, the lecturer and the 20 participants will be equipped with professional headsets through which they will be able to follow the lecture and engage in discussion.

A booklet is available to all participants at the beginning of each session, including a summary of the content and links to additional information. Participants completing the sessions will receive a UN CC:Learn pin and become part of the Alumni community.

EVENT OBJECTIVES

The Climate Classroom @ COP24 is an innovative learning experience, designed for anyone interested in getting up to speed on selected climate change topics and open particularly to members of LDC delegations, including negotiators, practitioners and academics.

ADDITIONAL INFORMATION

The Climate Classroom @ COP24 is an initiative of the Swiss Development Cooperation (SDC) and The One UN Climate Change Learning Partnership (UN CC:Learn).
