BACKGROUND

The Green Climate Fund's Simplified Approval Process (SAP) Pilot aims to establish a new approach that requires less documentation for proposals, and streamlines the review and approval process, making it easier to access GCF resources for mitigation and adaptation actions. To further simplify the approval process, GCF is launching an online submission portal for SAP projects on a pilot phase.

The webinars are designed specifically for Accredited Entities, National Designated Authorities and Focal Points and provide an interactive tutorial of the new SAP online submission portal and overview of the Entity Portal.
