BACKGROUND

Many governments in particular LDS and SIDS are increasing reliant on honorary consuls to serve key functions to support state-state engagement, citizen support such as repatriation efforts and crisis intervention and foreign direct investment. In order to meet the need for a comprehensive and accessible training protocol UNITAR has developed two training programmes focused on international diplomatic law for honorary consuls that will provide participants with a full range of skills and understanding related to the post of Honorary Consul. Both programmes include insights into the obligations, privileges, and immunities of honorary consuls under international law as well as several practical skills necessary to effectively fulfil their duties, yet vary in their focus and duration:

- Executive Diploma on International Law for Honorary Consuls
- Diplomatic Law and Responsibilities for Honorary Consuls (short course)

Inputs and cooperation with member states and all stakeholders received during the virtual forum will contribute to the progressive development of this important executive diploma and encourage a stronger and more effective honorary consul corps through training and capacity development.

EVENT OBJECTIVES

UNITAR having developed the training programmes on international diplomatic law for honorary consuls kindly invites
key stakeholders to this virtual summit where attendees can gain practical insights regarding training and education programs for current, new and proposed members of the honorary consul corps.
