uncclearn@unitar.org

Partnership:

UN CC:Learn Partnership, UNDP, Swedish Development Cooperation (SIDA)

Background:

IMPORTANT: Please register directly on the course website: http://unccelearn.org/

The knowledge that will be presented by Kit Nicholson, UN CC:Learn Partnership Coordinator, will help people understand how climate change can impact an area. This knowledge presentation, however, is not intended to be a substitute for professional advice on climate change. The knowledge presentation is meant to inform and educate people about the importance of understanding the relationship between climate change and the environment. The purpose of this knowledge presentation is to help people understand the importance of understanding the relationship between climate change and the environment. The knowledge presentation is intended to be a starting point for further discussion and action.

The knowledge presentation is part of the UNDP-funded programme aimed at supporting the implementation of the UNFCCC Convention and the Paris Agreement. The programme is led by the UN CC:Learn Partnership, UNDP and Swedish Development Cooperation (SIDA). The programme is led by the UN CC:Learn Partnership Coordinator (Kit Nicholson) in

Content and Framework:

The knowledge presentation is a study case on how the United Nations Convention on Climate Change (UNFCCC) has helped people understand the importance of understanding the relationship between climate change and the environment. The knowledge presentation is meant to inform and educate people about the importance of understanding the relationship between climate change and the environment. The purpose of this knowledge presentation is to help people understand the importance of understanding the relationship between climate change and the environment. The knowledge presentation is intended to be a starting point for further discussion and action.
