

Achievements, Innovations and Challenges Presentation on Integrated Policies and Policy Coherence for the SDG's

Key Achievements

- The Fourth Landed Campus of the University of the West Indies - Five Islands, Antigua, 2019.
- Banning of single use plastic bags and Styrofoam containers.
- A thrust towards renewable energy initiatives (Solar farm; Solar and LED Street Lights and other green initiatives).

Key Challenges:

1. Resource Constraints
 - Financial - Impact of climate events
2. Sparsity of Data
 - Lack of Research

Innovative Practices:

1. Incorporating Climate Resilience into Development Projects
 - Climate smart road networks
2. Mainstreaming Gender
