QCPR (A/RES/71/243)

(of operational activities for development of the United Nations system)

- **Q = quadrennial = 4 years**

Resolution discussed every four years in the second committee of the General Assembly (2012, 2016, 2020, before 2012 it was TCPR (3 yr)), but the follow-up of its implementation is done yearly in the ECOSOC OAS (operational activities segment) resolution. The Second committee also has a yearly resolution on the QCPR, mostly procedural or to bring the ECOSOC updates into the GA.

- **C = comprehensive = all UN development, but...**

Should cover all aspects of operational activities for development of the United Nation system. More than 30 UN entities (funds and programs, specialized agencies) are active in development. UNSDG (United Nations Sustainable Development Group) or UNDS (United Nations development system, generic name, no official list of members) are usually considered as the operational activities for development of the United Nation system.

- **P = policy = strategic, but...**

The resolution focuses on the policy level. It gives guidance on how the UNDS should work and includes some normative elements that are valid for all (Agenda 2030). The resolution gives also practical guidance that are more specific than a policy! It has become a mix of strategic and policy level and more operational aspects.

- **R = review = accountable**

The resolution builds over the years and is based on thorough reviews made by UN DESA (SG reports). It has a review mechanism (ECOSOC annual resolutions) that is based on annual SG implementation reports.

TRUSTEESHIP COUNCIL⁶

Notes:

- Members of the United Nations System Chief Executives Board for Coordination (CEB).
- UN Office for Partnerships (UNOP) is the UN's focal point vis-à-vis the United Nations Foundation, Inc.
- IAEA and OPCW report to the Security Council and the General Assembly (GA).
- WTO has no reporting obligation to the GA, but contributes on an ad hoc basis to GA and Economic and Social Council (ECOSOC) work on, inter alia, finance and development issues.
- Specialized agencies are autonomous organizations whose work is coordinated through ECOSOC (inter-governmental level) and CEB (intra-secretariat level).
- The Trusteeship Council suspended operation on 1 November 1994, as on 1 October 1994 Palau, the last United Nations Trust Territory, became independent.
- International Centre for Settlement of Investment Disputes (ICSID) and Multilateral Investment Guarantee Agency (MIGA) are not specialized agencies in accordance with Articles 57 and 63 of the Charter, but are part of the World Bank Group.
- The secretariats of these organs are part of the UN Secretariat.
- The Secretariat also includes the following offices: The Ethics Office, United Nations Ombudsman and Mediation Services, and the Office of Administration of Justice.

This Chart is a reflection of the functional organization of the United Nations System and for informational purposes only. It does not include all offices or entities of the United Nations System.

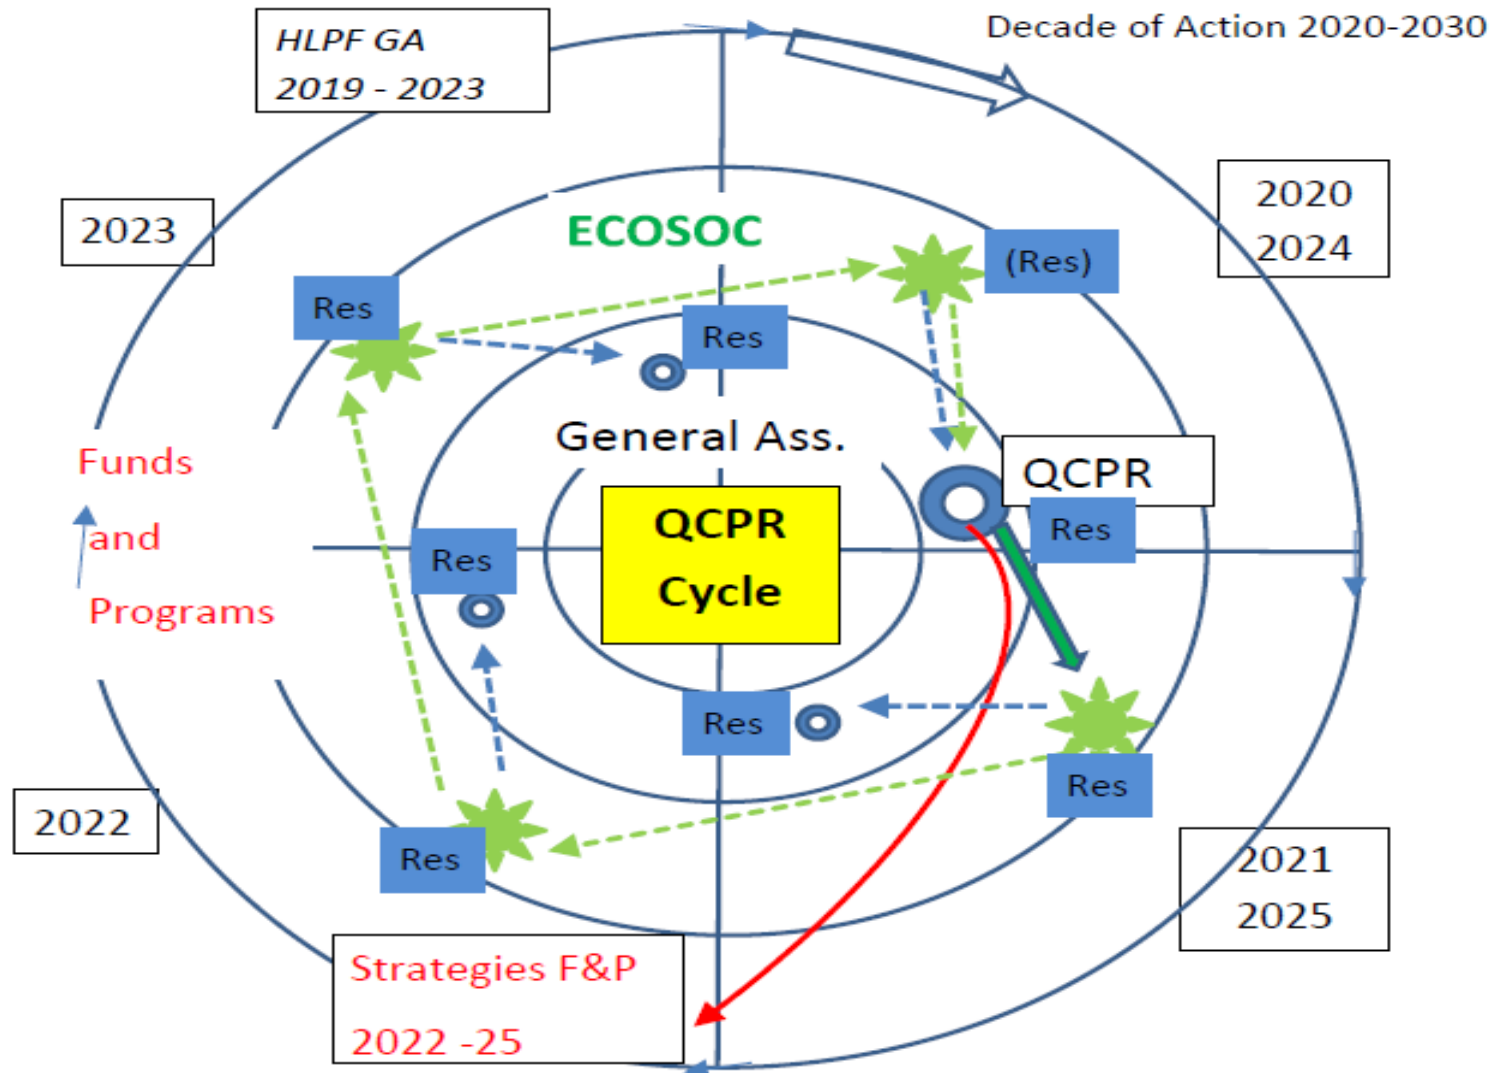

Role and responsibilities

- Mandatory for Funds and Programmes and other entities that depend on the GA (UNDP, UNICEF, UN Women, UNFPA, UNOPS, UNEP, WFP, ITC, UNCTAD, UN Habitat, UNHCR, UNRWA)
- Specialized agencies are strongly encouraged to follow it as well (FAO, WHO, ILO...)
- DESA does the follow-up reports (monitoring and reporting framework)
- Each fund and programme should include in their yearly report to their boards the progress on the implementation of QCPR.
- The role and behavior of Member States in the different organs and bodies of the UNDS should be consistent with the QCPR.

Why is QCPR important ?

- QCPR asks the UNDS to function as a system (collaboration, coordination, efficiency, division of labor...), and not independent actions.
- QCPR helps government to have a unique UN interlocutor (RC) to implement the Agenda 2030 through a united framework (UNSDCF) and system-wide guidance and knowledge sharing
- QCPR gives guidance for the strategic plans of the funds and programs and is in line with the High Level political Forum (HLPF)
- 4 years cycle and cascade
 - 2015: Agenda 2030, every 4 years HLPF GA (2019, 2023)
 - 2016 2020 2024: QCPR
 - 2017, 2021 : approval strategic plans 2018-2021/ 2022-25 of Funds/Programs

Res 72/279:

- Elaborate a System-wide strategic Document (OP 30) → System-wide Strategic Document

Some challenges of UNDS

- Fulfilling the Agenda 2030 is beyond development activities
- Implementing the Agenda 2030 - which trade-offs between the SDGs
- Implementation of the UNDS Reform
- Implementation of the System –wide Strategic Document
- Further improve the governance structure
- Live up to the agreed Funding Compact
- Response to the COVID 19 crisis
- Nexus - work between development, humanitarian and peace building?

Can the QCPR alone address all those challenges?

10-15 year vision: Interesting role of the ongoing ECOSOC dialogue on the longer term positioning of the UNDS and its influence on the next 3 or 4 QCPR (each 4 yr).

Some personal inputs

- Topics of intense discussions in the last years:
 - Climate Change ?
 - Repositioning of the RC System (cont.)
 - Critical mass of core resources (structured financing dialogue)
 - Impact of COVID 19
 - Partnerships within and outside the UN

Let's don't make it too complicated...
